The West Catonsville neighborhood is significant Criterion C as an intact example of the Baltimore area's development of both styles and vernacular buildings over the period of the latter half of the 19th century through the early 20th century. The Winters Lane section is additionally important for local significance as the black community first settled in the late 1860s by freed blacks and continuously associated with the community's development.

170 Winters Lane is a very modest, early 20th century version of the simple, vernacular frame houses of the Winters Lane area.
